

EARTHQUAKE SURVIVAL KIT

As we are all keenly aware, we are in an area in which earthquakes are a fact of life. In order to prepare for and to better cope with the possibility of an earthquake, we will practice earthquake safety drills in the classrooms. In the event of an earthquake happening during school hours and with the possibility of an overnight stay at school for the students, we wish to take further precautions.

We are asking each student to bring a mini earthquake survival kit on the first day of school. All kits will be stored by grade level in a nearby location. At the end of the school year, we will send them home with each student.

YOU WILL NEED A 1-GALLON ZIP LOCK BAG TO STORE ALL ITEMS IN.

Below are a few suggestions to put in your child's earthquake kit:

1. Tuna snack packs w/easy pull open cans
2. Candy bar (no nuts)
3. Dried fruit, fruit roll ups, or fruit snacks
4. Small cans of juice (no box or glass containers)
5. 1 Mylar space blanket (can be found at Sports Authority) or 2 large heavy duty trash bags (these may be used as blanket/rain protection, etc.)
6. Photo of family (to help comfort students)
7. Small toy for primary students (if so desired)
8. If your child takes medication on a regular schedule, you may include a 3-day supply along with a medication permission form.

COMPLETE THE FORM BELOW AND INCLUDE IN THE KIT.

(Please have students bring in their earthquake kit on the FIRST day of school.)

.....
Student Name _____ Grade _____

Parent/Guardian(s) _____ Home # _____

Address _____ Work # _____

Emergency Name & Phone Numbers:

Local contact _____

Out of state _____

Person(s) authorized to pick up student in emergency _____
